A CALL TO THE GOVERNMENT TO 'STEP ASIDE' FOR PEACE

I recently stated the Government is the ANC which drew some criticism.

The ANC People's freedom movement that promised to restore the freedom of all the people of the Rainbow Nation has been hijacked by the Rothschild's Global Financial Cartel using the Stellenbosch Cabal's Organised Crime Syndicate to masquerade as the ANC government, feigning incompetence, have turned this mineral rich, prosperous, abundant nation into a Vulture State.

In future I'll isolate the parties and will refer to the **Organised Crime Syndicate** as the **Government** and the **ANC**, as the '**Looting Party**'.

There's enough evidence to prove in any free Court, **this Government has declared and is at War with the People** and is nothing less than a well-oiled, industrial looting machine in the pockets of the Global Elite NWO Cabal.

Apart from looting, this Government is acting under instruction of the global elite to depopulate and destroy South Africa under the guise of '**SUSTAINABILITY**' according to UN Agenda 20021/25/30.

My brothers and sisters, ask yourselves, why has a foreign army been allowed to invade SA, why do we need **United Nations** mercenaries to help, 'economically uplift' the province of KZN? Why is UN military equipment and 4,000 **UN Special Forces mercenaries** waiting to 'economically uplift' KZN? Does this appear to be a peace keeping 'economic upliftment' exercise or a War on the People? Why are SANDF convoys moving covertly into KZN leaving Pretoria under cover of night, this before December 2021? How much SANDF military equipment is in KZN and why are these KZN convoys covert? This Government is in a silent, all-out war on We the People! History proves that every war in this country has started in KZN!

Whilst all eyes are glued to TVs and Ukraine, this Government cabal is occupied in eliminating our freedoms, have shut down the national fuel chain which also supplies SADC, have paralysed the supply chain, the food chain has been successfully targeted, correct me if I'm not spot on, the recent never ending rains prevented the maize planting season and wilted the crops in the fields while washing away an estimated one million hectares of topsoil in KZN, if that doesn't spell coming food shortages what will? Reliable sources have advised there is less than 2 months of maize left in the country. Maize is the staple food of the already impoverished masses - pause for a second and envisage the outcome of 30 million starving people deciding, its everyman and women for themselves!

Have all the Generals and all the Judges been paid massive sums in foreign bank accounts and been promised a spot in the sun glued to their foreign TVs viewing the destruction of South Africa? The open secret is that every Judge and General received R100m from the Gaddafi Funds. If you're unaware, this Government, in 2011 was involved in the theft of the Libyan taxpayer's funds to the tune of US\$21 trillion with no investigations, no mention in the media and the cash, laundered through South African banks, evidence in 'Zondo's State Capture Commission' submissions which Commission is another costly, R1billion distractive Government circus. I have to ask, are these Generals and Judges who've taken untold millions, going to standby with pockets full of cash and watch South Africans slaughtered and starved to death? If so, I suggest they read the Protocols of the Elders of Zion, a 20 minute read, to see what the Global Elite have in store for them.

Enough *pro scripto* evidence exists to prove that the justice system and judiciary are totally compromised, captured and have sold out.

We have a Government at War with the People, with irrefutable *pro scripto* evidence to arrest this **TREASONOUS CABAL**, I have to ask, why are we not following this path to stop them before they completely destroy our country? Why not openly investigate the evidence before a lawful People's Court?

My view is the country and economy are in freefall and we should only discuss an immediate Plan of Action to address this, if we do not, SA will be a wasteland, a Vulture and Pariah State, in which we'll not have time to bury the bodies.

We need coalitions of Freedom Movements, to call on this Government to **'STEP ASIDE FOR PEACE'** and offer them an amnesty.

We need peace if we're to rebuild this country with transparent organisational structures, We the People can rebuild our country into a dynamic manufacturing and financial hub paying all the citizens, a more than fair monthly stipend whilst the economy is rebuilt.

Consider the fuel levy is R180 million p.a., and that 70% of all our taxes are remitted to the Crown Corporation of London, notwithstanding under-invoicing of mineral resources and the cabal paying zero taxes on mineral exports.

The Cabal have planned to and are destroying our country with their stated plans of 'Build Back Better', to build an absolutely controlled enslaved communist country. When I state that we need to unite, I iterate, I support unity in diversity with the aim being, **UNITY OF PURPOSE** with our prioritised purpose being to remove this Government and rebuild this once prosperous nation into the dynamo that it should be, for Africa and the world to witness the rise of our true Rainbow Nation.

S.O.S. To our 350 million Brothers and Sisters of the African Diaspora, we are under siege in South Africa.

Henry William McCarter Amb.
